Rooted in Yunnan's strong floriculture industry and exceptional floral biodiversity, the competition also draws inspiration from Kunming's long-standing identity as the "Spring City" and the important role of floriculture in supporting local livelihoods and urban development. Reflecting current international trends in floral design and contemporary aesthetics, it aims to establish a professional, standardized and internationally relevant competition framework for fresh-cut bouquet design, with a strong focus on industry practice and commercial application. The competition goes beyond judging bouquets purely on visual appeal. It introduces a comprehensive evaluation framework built around five dimensions: botanical knowledge, regional and cultural expression, industry value, contemporary design, and commercial viability. Through this approach, the competition seeks to provide a leading professional reference in China for fresh-cut floral gift design, florist competency assessment, and the development of floral cultural and creative products, while also creating a platform for professional exchange with the international floral design community.

This event centers on the overseas development of the "Yunnan Flowers" industry, featuring two core segments: the Yunnan Flowers Overseas Market Sharing Session and the Yunnan Flowers Overseas Achievements Exhibition Area. The Yunnan Flowers Overseas Market Sharing Session focuses on policy interpretation and resource matching. Bringing together resources from multiple authorities including customs, agriculture and rural affairs, and tax administrations, it systematically interprets key aspects of Yunnan flower exports, covering export support policies, customs clearance procedures, tax incentives, and quarantine standards. It aims to effectively address prominent challenges faced by enterprises going global, such as unclear policy frameworks and unfamiliar operational workflows. The Yunnan Flowers Overseas Achievements Exhibition Area assembles export enterprises from major flower-producing prefectures and cities across Yunnan Province, showcasing local distinctive flower varieties and the industry's foreign trade achievements. Throughout the event, an efficient docking platform is established for enterprises to engage with international buyers, industry experts and government authorities. It supports enterprises in precisely accessing global procurement resources and optimizing their overseas market layout, so as to comprehensively advance the quality improvement, volume growth and efficiency enhancement of Yunnan flower exports.

10:30 植友世界对话 × 鹿角蕨上板挑战赛

Plant Friends' World Dialogue × Platycerium Mounting Challenge

11:30

Sean & Kaylee Ellen & Jan (Sydney Guy)

开场先简单聊聊各自国家的热带植物：澳洲人最近在追什么？欧洲什么品种退烧了？东南亚原产国的植友是不是真的“伸手就有植物”？然后直接进入正题——鹿角蕨上板
邀请一位本地热植专业人士担任评委，在三人完成后逐一上台点评、打分、现场示范教科书级操作（可选）。观众学到知识的同时，也看到了一场有输有赢、有欢笑有掌声的比赛。
最后，三块完成的板作品现场签名，以抽奖或拍卖形式送给观众——把“植物王国的礼物”带回家。
To start, the three influencers will have a casual conversation about the current trends in the tropical plant communities in their respective countries, and then go straight into the main event — mounting Platycerium.
They are given materials and have to work on mounting platycerium for the first time - using their natural instinct/intuition. It should be given a ridiculous time limit maybe 15 minutes.
After the three participants finish, the judge can come on stage one by one to choose their favorite, and, optionally, advice on how to do it better.
Finally, the three completed mounts can be signed on stage and given to audience members through a lucky draw or auction — turning them into a 'gift from the Plant Kingdom' that someone can take home.

13:30 植物的名字

14:30

张全星 植物眼
Zhang Quansheng

一场“分享+动手”的轻科普小场子：大家围坐在一起，只围着几盆植物聊天——名字从哪里来、名字里藏着什么。最后，请在座植友为一棵月季新品种起一个名字：从“知道名字”到“创造名字”，这是认识植物最浪漫的一步，也正合大会“来自植物王国的邀请·以植会友，交换植物热爱”的心愿。这棵月季新品种将现场送给入选名字的起名人。
A light science session combining talk and hands-on fun: sit together around a few potted plants and chat about where their names come from and what they hold within. To close, everyone is invited to name a brand-new rose cultivar — moving from “knowing names” to “creating names,” the most romantic step in getting to know plants, and a perfect fit for the expo's theme, “An invitation from the Plant Kingdom: making friends through plants, exchanging a shared love of plants.” The rose will be given on the spot to the person whose name is chosen.

The Plant Friends' Choice Awards · Kunming Tropical Plant Show Through Our Eyes

11:30

Sean & Kaylee Ellen & Jan (Sydney Guy)

三位博主选出在展会三天中最让他印象深刻的画面——每人分享10张照片，讲出它们为什么值得被记住。可能是不一样的植物，可能是布置的特别有意思的展位，也可能是蹲在角落里认真拍植物的观众。“每个人走了三天，看到的東西都不一样。有人看到了品种，有人看到了人，有人看到了创意。”
This segment would take place on the final day of the show. Each of the three influencers chooses the moments that left the strongest impression on them over the three days of the exhibition. Each person shares 10 photos and explains why they think those moments are worth remembering.
It could be an unusual plant, a particularly creative or interestingly decorated booth, or even an audience member quietly crouched in a corner, seriously photographing plants.
“Everyone spent three days walking around the same show, but they all saw different things. Some people noticed the varieties, some noticed the people, and some noticed the creativity.”
